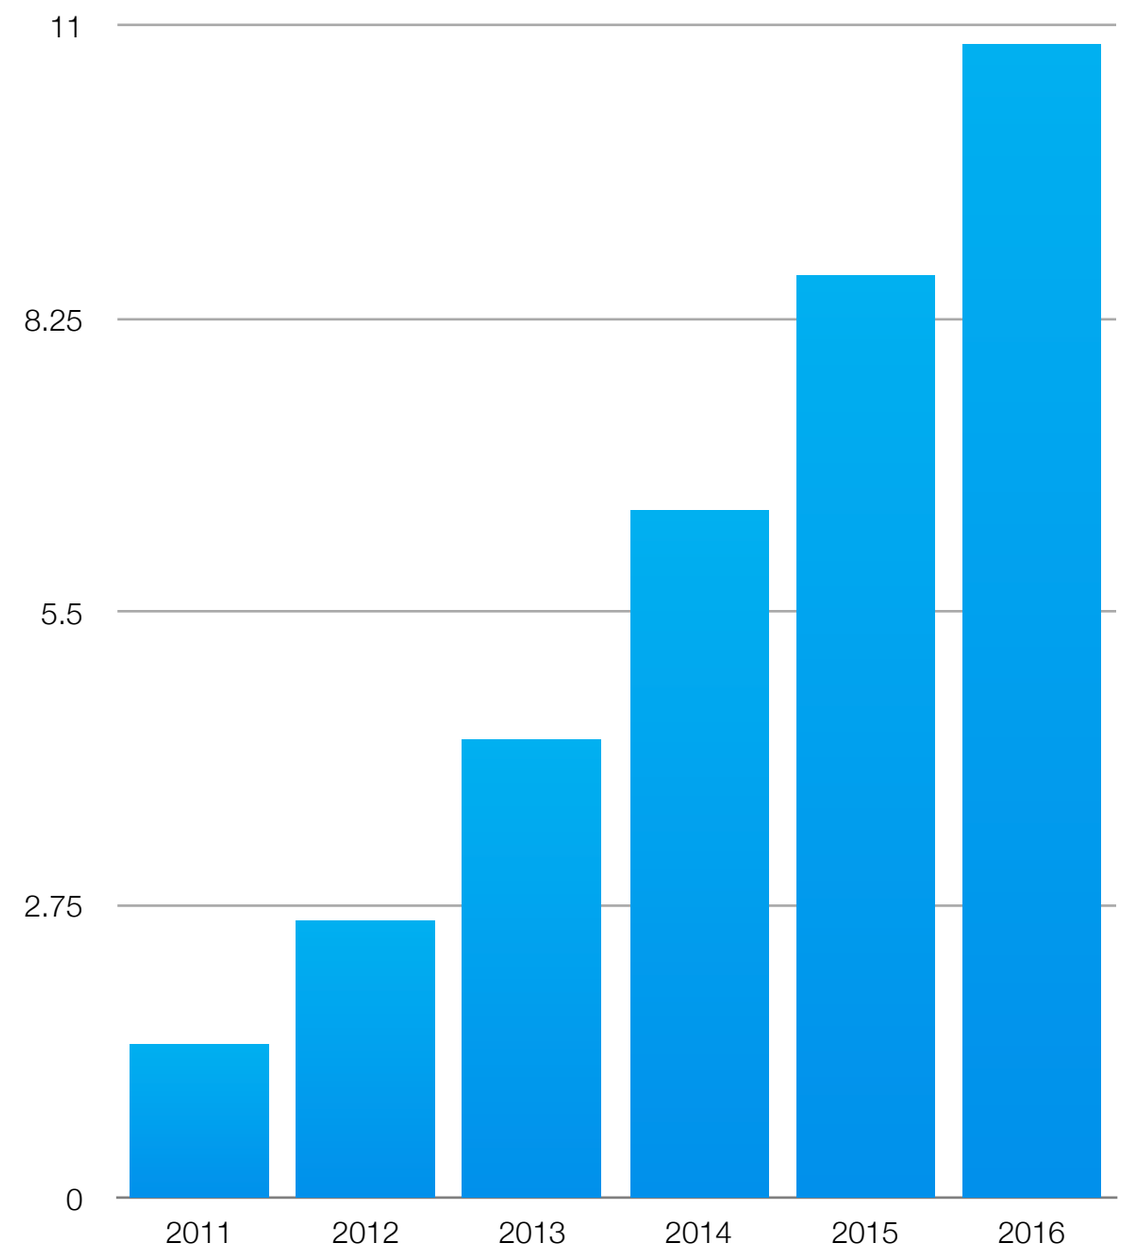
Advertising Today

People are paying more attention to their smart phones and tablets than they are to all “traditional” advertisements combined. While advertising noise is louder than ever, the focus and attention of individuals is on their mobile screens.

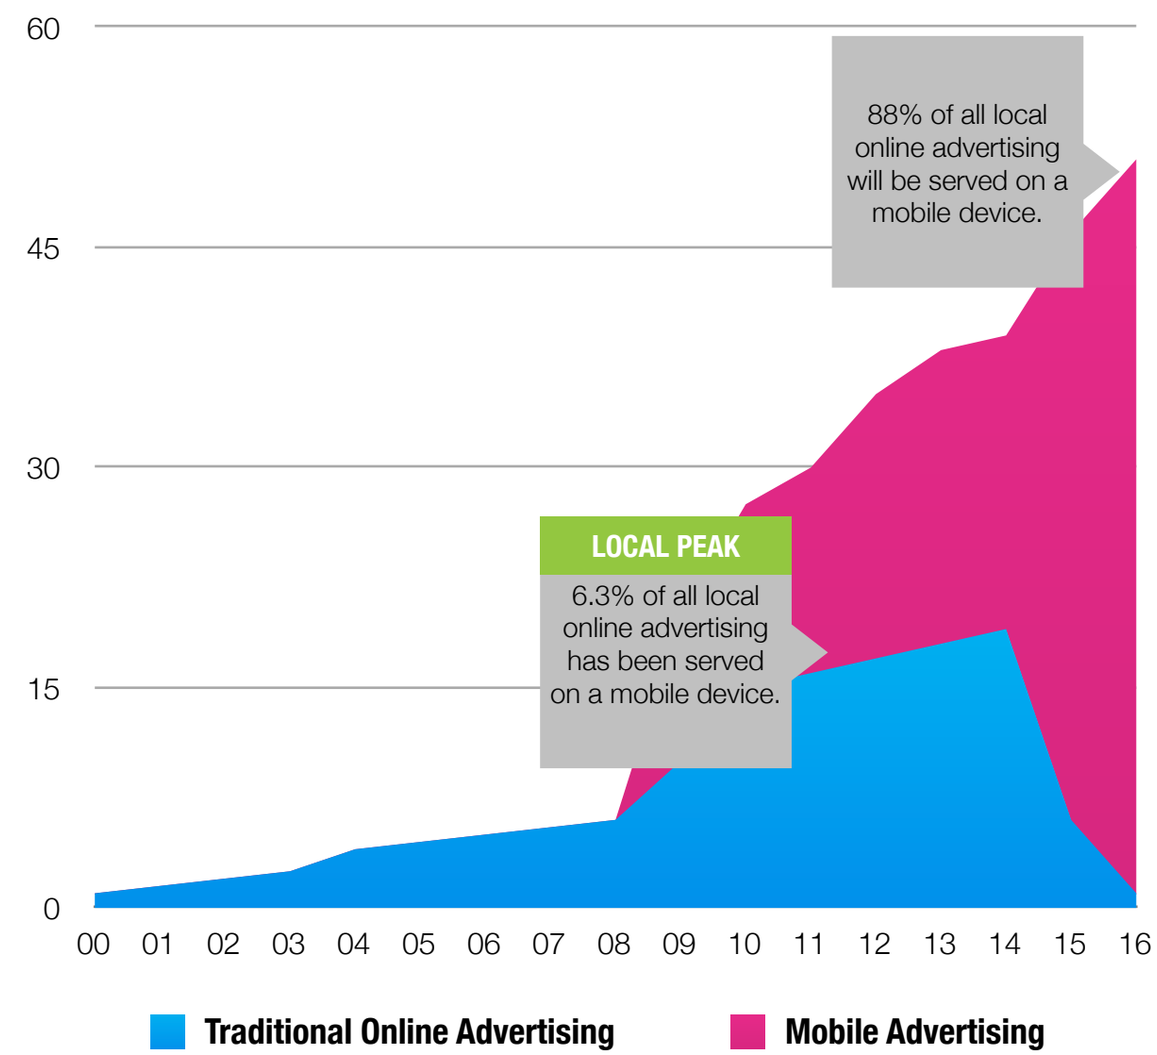
The Tidal Shift to Mobile

- Mobile ad sales will see a 300% growth rate over the next 3 years
- Granular targeting is expected at pennies on the dollar
- Calls to action are needed for anytime, anywhere audiences on the GO



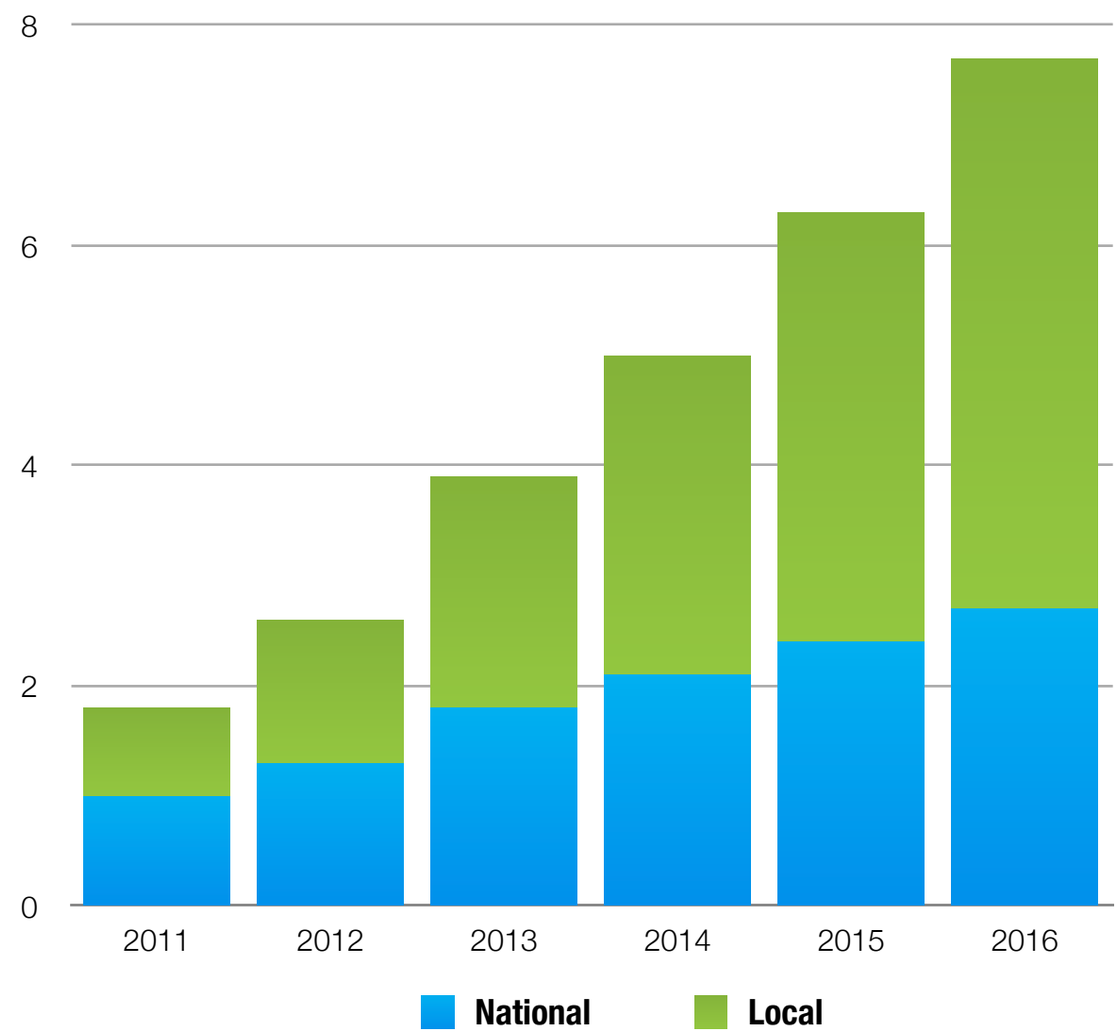
Mobile Ad Dollars are Smarter

- Ad budgets are shifting from web to mobile
- Why? $0.75 - $3.00 CPM for mobile vs $4 - $24 CPM for digital
- Granular targeting: Behavioral, Audience, Channel, Geography and Hyper-Local



Mobile Ads are Rapidly Going Local

- Ads only appear to relevant users and precise geographic locations
- Content experience and relevancy are intersecting with location
- On average, there is a 120% increase in consumer engagement



Targeting Beyond the Device

- Channel
- Geography
- Age
- Gender
- Site Frequency
- Carrier
- Device
- Many More

CONSUMER A	CONSUMER B	CONSUMER C
35 Years Old	21 Years Old	37 Years Old
Male	Female	Female
Late Night Diner	Bargain Shopper	Likes Children's Books
Sports Enthusiast	Lives in St. Louis	Home Maker
Android User	Avid Facebook User	Windows Phone
	iOS User	AT&T Carrier

Multi-View

Device Bridging Solution

Leverage TapIt's mobile platform and "Multi-View" to reach multiple devices in a household sharing the same IP. Combine this service with behavioral data to target ads to bridged devices including desktops, tablets and smartphones.

Example

5:00pm

It's been a long week. You leave work and head downtown to a Happy Hour with your friends.

5:30pm

You post an update on your phone; noticing a travel ad on the bottom of the screen. You have been researching a vacation on travel sites. Thinking...

7:30pm

Back home. You start surfing on your desktop and see a 2nd ad from the same brand with a special offer. Click!

9:00pm

You leave the house with trip confirmation in hand and enough money saved to stay an extra night. Nice.

Multi-View

Benefits

Built for Todays Consumer

Capitalize on the increasing trend of multiple digital devices within the same household. Turn mobile snacking into desktop conversions!

Enhanced Awareness

Capture the branding and direct response value of cross-channel consumer access by optimizing their cross-device experience.

Improved ROI

Create campaigns that mitigate desktop duplication by integrating desktop and mobile ad buys so that each benefits and influences the other.

No Integration

Via 3rd party technology, Multi-View is accomplished through a zero-integration ad operations approach of pixel tag placement and ad tag trafficking.

Increased Reach

Over 1 Billion “bridged” devices globally and 75% coverage of U.S. households. Once devices are bridged, ads can be targeted even when outside the home.

Simple Process

Desktop campaigns launch after a 7-day seeding period via the mobile campaign. Fully Privacy Compliant ensuring no device fingerprinting or use of PII.

Unlimited Opportunity

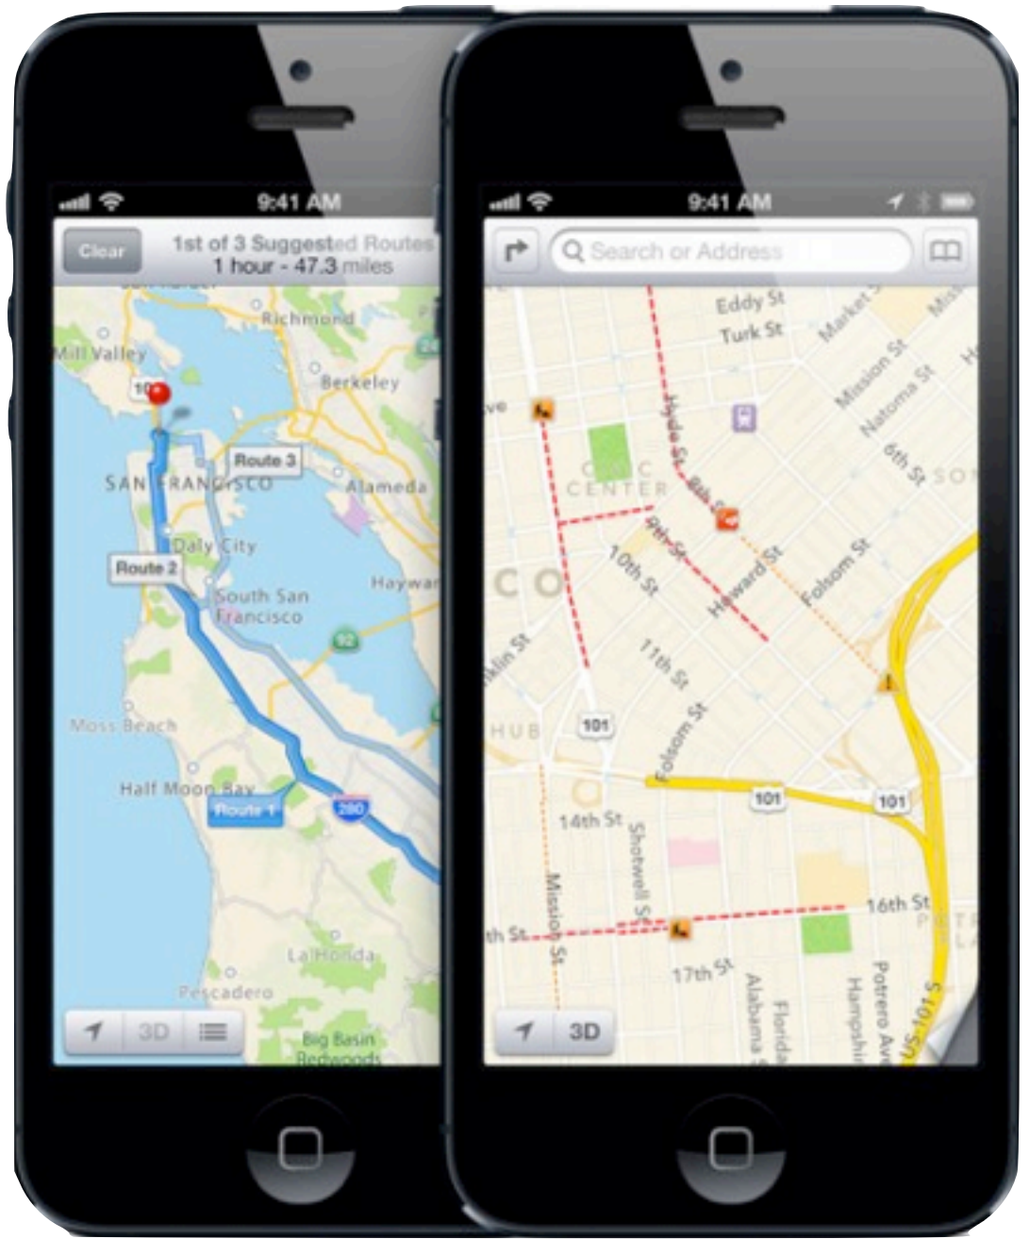
Unlimited devices. Unlimited segmentation. Target, reach and monetize your customers at the right time, with the right message, no matter where they are.

Turn Data Into Strategy

Real-time campaign optimization by browser, time of day and media channels allows for focused spend on individuals and households that are engaging with your advertisement

Why Work with TapIt! by Phunware?

- Market leader in hyper-local solutions
- Full service brand / agency / performance
- Top tier direct premium inventory



Hyper-Local Focused Platform

- Drive ticket sales
- Promote test drives and new model releases
